

OER CHECKLIST - Screencast

Evaluator Name: *Eva Egensteiner*

Date: *July 11, 2025*

Title and Type of Media:

Mini-course Video to promote the Visual Storytelling for Civic Engagement course.

Resource URL: https://youtu.be/xQ_qHP1HMq0

License (Creative Commons, shareware, etc.)

The AI-generated images and graphics are free.

The infographic I created is CC-BY-NC-SA

Accessibility (an area for the accessibility/ADA compliance of the resource)

I included closed captions. The audio quality is fine and understandable. I tried not to speak too quickly and included some pauses.

English language appropriateness for non-nature speakers (look/listen for challenging terminology and jargon, is Global English used?)

Simple clear language was used in the minicourse video.

Content Connections / Relevance

This screencast fits into my minicourse by explaining how the three different consent and release forms are used in the course. It is a short and easy to understand tutorial on the differences and importance of each form.

Quality of Materials

Good Quality

Summary/Comments (an area for the person evaluating the resource to include comments and a summary of the evaluation).

The materials shown in the screen cast could be isolated so as not to see the extraneous browser information. The audio could be improved by using a separate microphone rather than just the built-in webcam. Seeing the person who is voicing the screen cast for some or all of the video would increase the engagement and make it more personable.
